

Are you or is someone you know PREGNANT?

The Blossom Project

We are conducting an observational research study to better understand diet and activity consumption in pregnant women.

- No change to your lifestyle will be asked of you;
- Must be pregnant (between weeks 12 and 35) and at least 18 years of age;
- Exclusion criteria include: smokers, pregnant with more than 1 baby, or a chronic illness (e.g. type 2 diabetes, high blood pressure, heart disease or chronic kidney disease)
 - A maximum of 4 study sessions required.

Eligible participants will be compensated. Participation is voluntary.
